MANY TEACHERS TO ATTEND

Meeting of Kentucky Educational Association In Louisville Wednesday

ELABORATE PROGRAM PREPARED

More than 5000 teachers representing every county in Kentucky, are expected to be in Louisville Wednesday for the opening sessions of the Kentucky Educational Association, the advance enrollment having broken all records.

R. E. Williams, secretary of the association, said yesterday that superintendents of public schools in the counties and cities have co-operated in securing this advance enrollment more generally than ever before. Several county superintendents, he said, have sent in advance enrollments together with the membership fees for every teacher and school trustee in their counties.

Another thing that is expected to contribute toward making the coming meeting of the Kentucky Educational Association the most successful ever held, in point of numbers attending, is that never before has an equal number of schools throughout the State been closed in order to give the teachers an opportunity to be present at its sessions.

Honor Kentucky Poet

The big feature of the meeting which will continue for four days will be the session to be held Wednesday night at the First Christian Church. An elaborate program in honor of Cale Young Rice, the Kentucky poet, has been prepared for this occasion. This session will be open to the public and will be the only one of the four day's meeting to be so opened.

The principal speakers on this occasion will be Miss Ida M. Tarbell, of New York; Dr. Archibald Henderson, Dr. J. T. C. Noe and Mrs. Annie Fellows Johnston. Mr. Rice will himself read several selections from his poems. Dr. E. Y. Mullins will preside and will make the introductory address at the meeting.

The department conferences will be held at the first Christian Church and at the Seelbach Hotel. At these conferences papers will be read and addresses delivered by the best known educators of Kentucky and others by persons prominent nationally as writers and teachers.

This is to be a free will offering and not an obligation. All gifts, however small will be so gladly received. Refreshments of ice cream and cake will be served to those that come and donate.

Hours from 7:30 to 8:30.
Place—Odd Fellows Hall

AUTO TURNS OVER OCCUPANTS INJURED

The Studebaker Auto recently purchased by John Morgan was damaged and the occupants injured Tuesday afternoon when it turned over near Barnsley. Mr. Morgan and wife, Mrs. Ed Hamer and little son J. P. and Mr. Elliott Drake were in the car, with Mr. Morgan driving, and as they were passing Barnsley, going at a rapid rate, Mr. Morgan lost control of the car and it ran out of the road into a ditch and turned completely over, breaking Mr. Drake's arm and leg, and badly bruising Mrs. Morgan and Mrs. Hamer and little son J. P. Mr. Morgan was uninjured. It is fortunate that the entire party were not killed and the only thing that saved them was the fact they fell in the ditch, thus keeping the weight of the car off of them. The injured were brought to the city by B. E. Nixon in his car. Mr. Drake is reported to be suffering greatly, the others will be alright in a few days.

Auction Whist Club

The Auction Whist Club was entertained by Mrs. George O. A'kinson on last Friday afternoon. Several of the ladies made very high scores. Mrs. Kate's being the highest. Mesdames Kate, Rose, Johnson and Klue lead in the total score. A dainty salad course was served at the conclusion of the game.

AUTO LOSES A WHEEL

The other night while Prof. C. E. Dudley and the boys high school baseball nine were on their way to Providence in a couple of autos, the left front wheel came off of one of the cars and the car dropped down. Fortunately they were going at a slow rate of speed and no one was injured. On the return trip Farnsworth's car slipped an eccentric and had to be towed in with Clark's car. They reached this city about 3 o'clock Sunday morning. The game was a tie.

HOUSE CATCHES FIRE

Mr. Mood Fowler's house caught fire last Saturday morning. The roof got a small hole near a fire place chimney. A man in a buzz cut passed Mood Fowler's house and saw a fire on the roof and notified them before it was consumed.

The Kauri Gum Diggings.
Kauri gum, found underground in New Zealand and dug to the amount of a million and a half pounds yearly is used for furniture polishes and varnishes, and most of it is exported to America. The industry of digging it is unlike any other in the world. In kauri forest is a beautiful sight. The kauri gum country is treeless, barren and desolate, even and swampy vegetation, with singularly heavy, clogged soil, out of which the gum formed in kauri places of ancient and long wooded forests is dug or spewed. There are whole stretches of this treeless kauri country with nothing but a few scrub and fern growing on it.

THOSE THAT HAVE-GET BY A. T. WESTON

CHANGED THEIR MINDS

Several days ago Judge Mills received notice from Secretary of State Equalization Board at Frankfort, stating that a tentative raise of 10 per cent had been placed on town lots in this county. Monday a second notice was received by Judge Mills stating that a raise of 40 per cent on farm lands and personal property and 10 per cent on town lots of the county, had been made by said board. This is an unusual raise and all who are aware of this raise are considerably exercised over the matter.

Go Light on Buckshot.
Buckshot should be relegated to the past along with the buffalo gun and the market hunter's "cannon." It will inflict a painful wound upon deer and yet will not kill except at very close quarters. Even the poorest shot can usually score a hit with buckshot, and he will in the cases out of ten be tempted into "letting her have it" when the game is absolutely out of effective range. About the only useful purpose for which buckshot can be recommended is in self defense against a human enemy at close range.—Outing

Those present were: Mary Lou Ashby, May Lillian Fish, Thelma Browder, Louise Gordon, John Herb, Bernard Murphy, Bailey Benard, Eugene Witherspoon, Earl East and William Browder.

Casper Lynn Accidentally Killed

Casper Lynn, the son of Mr. and Mrs. W. R. Lynn, of Madisonville, was killed in an automobile accident near Memphis, Tenn. The family were returning to Madisonville on a visit and were leaving Memphis when one of the grips fell from the auto. Casper alighted to get it and when his foot struck the wet street he slipped and fell striking the back of his head with such force that he died shortly afterward. His remains were shipped to Madisonville and interred in the Odd-Fellows cemetery.

Nice Treat to The Bee Force

Mr. M. B. Long the well known and popular bakery man of this city opened his heart and treated the entire Bee force Tuesday to brick cream and delicious cake. It is entirely unnecessary to say that the force appreciated this remembrance and also that Whit got more than his share.

Salt and Fresh Water Fish.
When a crawfish or a frog is put into salt water it dies. When a jellyfish is put into fresh water it, too, dies. This is due to a familiar quality of liquids known as osmosis. A fresh water creature is full of liquid of a lower specific gravity than the salt water; consequently when placed in salt water this draws the interior liquids out and leaves the creature shriveled. On the contrary, when the salt water creature—jellyfish, for instance—is placed in fresh water the salty liquids in its tissues draw the fresh water to them, and the creature swells until it is suffocated.—New York World.

Neither a German Pirate Nor an Imprisoned Spy

From "The Virginian" a swag-ging hotel at Lynchburg, Virginia comes this interesting communication:

Lynchburg, Va., April 16 '16
Editor of the New Era,
Hopkinsville, Ky.

Dear Sir:
Will you be kind enough to let my Hopkinsville friends know through the columns of your paper that I am living at Lynchburg, Va., and not in a prison as German spy as reported in your city. I am no pirate or spy but enjoying the pure air and freedom of the mountains of Virginia. There is and always will be a warm spot in my heart for Hopkinsville.

Yours very truly,
Walter B. Sadelman.

There is said to be one case at S. D. Cook's and two cases at Jack Odom's. They are said to be in a mild form.—Seabee Banner.

The Earliest Cigars.
The earliest mention of cigars in English occurs in a book dated 1735. A traveler in Spanish America named Cockburn, whose narrative was published in that year, describes how he met three friars at Nuevague, who, he says, "gave us some seggars to smoke; these are leaves of Tobacco rolled up in such manner that they serve both for a Pipe and Tobacco itself; they know no other way here, for there is no such thing as a Tobacco Pipe throughout New Spain."

Official Evansville Centennial Design.
This year, one hundred years ago, the state of Indiana joined the Union, being the nineteenth member thereof and to mark the occasion, counties, towns and cities throughout the Hoosier state are planning Centennial celebrations.

The character of these celebrations will vary and the programs to be rendered are manifold but all will tend to carry out the idea and to observe the anniversary of this historical event. The city of Evansville is planning to hold one of the largest and most interesting celebrations at Evansville on May 9, 10, and 11th. Evansville, Indiana's Gateway to the south, is making preparations to make this a gala event. It will be doubly elaborate and of importance due to the fact that the Indiana state encampment of the Grand Army of the Republic will be the city's guests at the same time, creating a joint celebration that will outlast any of the many other big affairs held in the second city of Indiana.

The encampment will open Tuesday, May 9th. In addition to the G. A. R., the various bodies of sons of veterans, the U. S. Spanish war veterans, women's relief corps, and all auxiliaries will hold conventions, meetings and entertainments will follow in rapid succession, morning, afternoon and evening, in the various large halls of the city. On the evening of May 10th, those attending the encampment will be given a moonlight excursion on the beautiful Ohio justly claimed the American Rhine. Business meetings will continue the morning of the 11th.

One of the big features of the entire celebration will be the monster gala parade to be held the afternoon of May 10th. This parade is divided in four large divisions with sub-divisions. The parade will be headed by the guests of honor, the veterans of the Civil War and the various military and semi-military organizations thereof. One of the most picturesque divisions ever attempted will be the historical division when thousands of on-lookers will be given a vivid panorama of our state's history by historical groups and floats. A unique division and a beautiful one will be the floral division, the parade committee has taken great pains in securing the best floral designer in the middle west. Great interest has been shown in the floral division of the state and city "made in Indiana" and made in Evansville" is the slogan adopted for this division. Beautiful and classy floats representing various industries will be seen there. Over fifteen bands, more than thirty floats and numerous other features will make this spectacular street parade one of lasting impression.

One of the most noteworthy and principal events of the three day celebration will be the mammoth, historical festival play at Boone Field on the evenings of May 10th and 11th. Two thousand people will participate in this historical spectacle which is to be given in twenty episodes, each one depicting a different period of our state's history. This immense play will be staged on the only municipal athletic stadium and baseball field in the state. Steel and concrete stands of the most modern kind will seat eight thousand people.

The open air stage will be 375x200 feet with immense scenic settings, powerful and detailed stage and lighting effects, costumes and enactment that will astound. The production to be given is the first ever attempted on this gigantic scale.
Mrs. Abdon Fellows Bacon of Evansville, nationally known for her lectures and writings on housing reforms is the author of the pageant book. Governor Samuel L. Itelson state and national G. A. R. officers and other nobles will attend the festivities. The city of Evansville will raise a large fund to make this three-day affair a huge success.

Jenny Lind and the Trill.
Jenny Lind after years of steady practice believed that the much coveted trill was for her an impossibility. She practiced hours a day, but was unable to accomplish the feat. One day, thoroughly discouraged, she was sitting in her garden when all at once she looked up into a tree. Above her a bird was trilling. She at once went to her piano and through some magic or power of imitation began the trill and from that day never had any further difficulty.

BANKRUPT Furniture Sale

Thursday was a sea of faces! Today will be a small ocean, for news will bring out customers who had never dreamed of buying furniture. The management takes this opportunity of apologizing to those who were unable to be waited upon and ask that they return again as our sales force has been increased.

A Ruthless Slashing of Prices Below Cost of Production Prevails

And everything for the home including Rugs, Carpets, Furniture, Stoves and Ranges are being sold at prices less than any manufacturer can sell the goods today. It is absolutely impossible for any furniture dealer anywhere to compete with our prices because we bought this entire stock—not one item being sold to any other firm or individual—at our own bid which was low enough for us to sell the goods at less than cost price to Jourdan and Loesch and still make a living profit on our investment. Furniture dealers attending this sale on opening day and buying from us at our sale prices is evidence of our claim.

OUT OF TOWN CUSTOMERS FARES PAID AND FREIGHT ON FURNITURE PREPAID. Think what this means Mr. and Mrs. OUT-OF-TOWN customer! We are too busy to write out a list of bargains, but we offer here just a sample from our six great floors covering four in the main building and two over the Heimann store, not including the warerooms.

A Cabin From a Redwood Log.
There is a cabin in Golden Gate park,
San Francisco, which is constructed of
a single log of redwood. It is about
twelve feet long and rests upon a
heavy platform of timbers which sup-
port the weight of the hollowed log.
A doorway about five feet high and
eighteen inches wide admits visitors to
the interior, which forms a fair sized
room. The appearance of the cabin is
striking because the front presents a
cross section of a large redwood tree
with the bark intact.—Popular Science
Monthly.

Splendid for Rheumatism
"I think Chamberlain's Liniment
is just splendid for rheumatism,"
writes Mrs. Dunburgh, Eldridge, N. Y.
"It has been used by myself

past six years and has always given
the best of satisfaction." The quick
relief from pain which Chamber-
lain's Liniment affords is alone
worth many times the cost. Obtain-
able everywhere.

Loosing His Senses.
A mischievous boy, having got pos-
session of his grandfather's spectacles,
privately took out the glasses. When
the old gentleman put them on, find-
ing he could not see, he exclaimed:
"Mercy on me! I've lost my sight!"
But, thinking the impediment to vision
might be the dirtiness of the glasses,
he took them off to wipe them, when,
not feeling them, he, still more fright-
ened, cried out: "Why, what's come
now? I've lost my feeling too!"—Lon-

Imitative Monkeys.
Monkeys never wash or bathe, though
they have, as a rule, every chance to
do so. Possibly experience has taught
them to be afraid of crocodiles, which
are pretty generally distributed on
monkey haunted rivers. It is said that
a number of Indian monkeys watched
a party of Europeans in a boat who
washed their hands and brushed their
teeth. Next day the monkeys were
seen to come to the river side and go
through the form of washing their
hands and of brushing their teeth with
bits of stick.

OUR PUBLIC FORUM

Frank Trumbull
ON UNIFICATION OF RAILROAD JURISDICTION.

There is no more perplexing problem in government today than the proper regulation of railroads, and no one more capable of discussing the subject than those who finance and manage railroad properties, for experience is the handmaiden of understanding and practical wisdom the stepping stone to success.

Frank Trumbull, Chairman of the Railroad Executive Advisory Committee on Federal Relations, when asked for his views on the effect of regulation upon railroad investments, said in part:

"The desirability of regulation is, of course, admitted. Whether the regulation the railroads have had is a success is a fair subject for discussion. One thing is certain—there is at present practically no appetite for fresh investment in railroads; that is for new construction or large improvements.

"Now that an efficient banking system has been established by the Federal government, a solution of the railway problem, fair alike to investors and to the rest of the public, is first in importance among our national domestic questions. The interdependence of railway owners and employees and of the shipping and traveling public has been demonstrated so often that I do not attempt here to prove it over again.

"Are railroad managers entirely to blame? Suppose you are attempting to administer a railroad in an honest and straightforward way. Most railroads are so managed; there have been some exceptions, just as there have been wicked bankers, farmers who put their best apples in the top of the barrel, and other people who have made sharp horse trades. But in either of the cases mentioned, does anyone expect the State to penalize the banking business as a whole or the apple business or the raising of horses?

"The situation is much as if you had built a hotel in some good sized town, say, twenty or thirty years ago. Probably very few, if any, of the bedrooms were provided with bathrooms. Perhaps the furniture consisted of a bed, a bureau, a wash-stand and two or three chairs. Suppose that after investing your money in that way the State passed a law stipulating that the price per room should not be over two dollars per day. Suppose after that the State passed other laws requiring a certain number of bath rooms, additional furnishings, fire escapes, screens on all the windows, sanitary appliances, etc. Perhaps these requirements are reasonable and in the public interest, but where would you get the money for new and better hotels under such restrictions of profits? I have said that the situation of the railroads is much like that, but the hotel investment is simplicity itself as compared with investing in a railroad."

Influence of Dreams.

If we dreamed the same thing every night it would affect us as the objects we see every day. And if an artisan were sure to dream every night for twelve hours' duration that he was a king I believe he would be almost as happy as a king who should dream every night for twelve hours on end that he was an artisan.—Pascal.

Pills Best For Liver

Because they contain the best liver medicines, no matter how bitter or nauseating for the sweet sugar coating hides the taste. Pity the Congregation.

An old Scotch minister told his assistant that he felt more fatigued hearing him than in preaching himself. The assistant replied that he experienced a similar feeling when his senior was in the pulpit.

"Then," rejoined the minister, "pity the folk that have to hear us bawble!"—Yontb's Companion.

Should Not Feel Discouraged

So many people troubled with indigestion and constipation have been benefited by taking Chamberlain's Tablets that no one should feel discouraged who has not given them a trial. They contain no poison or other digestive ferments but strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

Brazil's Big Meteorite.

After lying in a bed of dust for many years the largest meteorite in any museum was finally landed in Rio de Janeiro by Dr. Orville Derby. It is more than seven feet long, almost five feet in width, and its weight when it fell was about 12,000 pounds. It was first discovered in 1784, and the following year an attempt was made to convey it to the town of Bahia by means of a truck built for the purpose. It took the men three days to load it, and eighty oxen dragged it a distance of 1,500 feet to the bed of a stream near by, where they had to abandon it. There it lay for about twenty-five years, when Mr. Mornay, an Englishman, came upon it.

Watch Child's Cough

Colds, running of nose, continued irritation of the mucous membrane if neglected may mean Catarrh later. Don't take the chances—do something for your child! Children will not take every medicine, but they will take Dr. King's New Discovery and without bribing or teasing. It's a sweet pleasant Tar Syrup and so effective. Just laxative enough to eliminate the waste poisons. Almost the first dose helps. Always prepared, no mixing or fussing. Just ask your druggist for Dr. King's New Discovery. It will safeguard your child against serious ailments resulting from colds.

Trouble Ahead.

Young Wife—I know. That's what she wants to see you about. She read the telegram.

ECONOMY.

"Be consistent in your economy. Don't try to save on the necessities of life. To do so is false economy. But practice your economies on those things you do not actually need—the luxuries of life."

Dust in His Eyes.

"To throw dust in the eyes" originated in the early days of Greece, for Epaminondas, wishing to surprise the Lacedaemonians, had 1,000 cavalry advanced in front, causing a great dust, which the wind blew in the face of the enemy, blinding them to the discovery of a flank movement he was executing in order to take the covered heights in their rear.

The Women's Tonic

Mrs. Sylvia Woods,
of Clifton Mills, Ky., says:
"Before taking Cardui,
I was, at times, so weak I
could hardly walk, and
the pain in my back and
head nearly killed me.
After taking three bottles
of Cardui, the pains dis-
appeared. Now I feel as
well as I ever did. Every

Tommy and Freddie were arguing
hotly. "I tell you," vociferated Tommy,
"he is my pa, he is!"
Freddie laughed scornfully. "He
ain't either your paw."
"He is—he is! My ma says he is
too."
"And my ma says he's a catpaw!"
